

JOB DESCRIPTION - 3D Designer

We are looking for a creative and skilled 3D Designer to join our dynamic team. The ideal candidate will have a passion for creating visually stunning and innovative 3D designs for POS displays, shop fittings, and display racks. You will be at the heart of transforming concepts into tangible products that resonate with our client's brands and the end consumer.

Key Responsibilities:

- Collaborate with the design and development team to understand project requirements and develop 3D models accordingly.
- Utilize 3D modeling software to create innovative and detailed designs of POS displays, shop fittings, and display racks.
- Ensure all designs are optimized for manufacturing, taking into consideration material usage, cost, and assembly efficiency.
- Stay abreast of the latest trends in 3D design, retail space optimization, and materials technology to continually enhance the quality and innovation of our products.

Qualifications:

- Proven experience as a 3D Designer or similar role, with a portfolio showcasing your work in product or industrial design.
- Proficiency in 3D modeling software such as Autodesk, 3d Max, Maya, Blender, Autocad or similar.
- Strong understanding of manufacturing processes and materials, with the ability to design for manufacturability and cost-effectiveness.

About Amitoje India:

Amitoje India is at the forefront of the POS display manufacturing industry, serving over 700 clients worldwide. With 5 patents, including 2 granted for our groundbreaking foldable designs, we're not just creating displays; we're revolutionizing the way products are presented in retail spaces. Our mission is to provide cost-effective, innovative, and aesthetically pleasing display solutions that meet the evolving needs of our clients.
